DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The disclosure is objected to because of the following informalities:

In the Specification in paragraphs 0005, 007, and 0008, applicant refers to the claims.

The references should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 14-16 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Some type of light leaking means, critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). While claim 14 at least claims the light guide panel, there is no structure recited in the claim which allows light to escape from under the cover when the cover is closed. .

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, line 5, applicant claims “light emitted from the light emitter in a direction opposite to the cover”. It is unclear what direction is “opposite to the cover”.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 13 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Hiemstra et al. (US Patent 5,428,513).

Re claim 13, Hiemstra et al. discloses a vehicle sun visor comprising a mirror (40) with a cover (30) mounted to a surface of a sun visor body and configured such that an illuminating device (36) hidden by the cover is uncovered and illuminated when the cover is opened, wherein the illuminating device is mounted to the cover.

Re claim 16, the illuminating device is disposed on either side of the cover in the widthwise direction (see figure 2).

Allowable Subject Matter

9. Claims 7-12 are allowed.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose vehicle sunvisors and lighting devices.
